- *INSTRUCTIONS ON THE CARE AND MAINTENANCE OF: NATURAL, COMPACT, MICROTEC*
- *MAINTENANCE, USE AND CLEANING*
- *ENVIRONMENTAL AND CERTIFICATES*

OUR FURNITURE

Our vanities structures are made exclusively with the most solid MDF planks.

To obtain the MOST beautiful glossy lacquered our vanities have 3 coats of paint. We use the MOST high quality melamine or natural wood to cover our 19 mm MDF planks. The interior is finished with grey laminated MDF planks too.

All edges and flanges are lacquered with MOST delicate attention to get absolute resistance to the humidity.

Our rails "soft-close" provided all our vanities the MOST soft and noiseless closing, synonymous of quality and durability equipment. They warrantee moreover an extraordinary durability of closing doors and drawers. At full extension they support a weight of 40/60 kg.

All our bath vanities have a space of 5 cm at the rear to allow a MOST easy installation.

Our bath vanities are delivered assembled and ready to install.

Before shipping, each piece have a MOST complete manual control, rigorous and meticulous.

A MOST neat packaging is done manually and reinforced with polystyrene corners to ensure an optimal protection during transport. A plastic film covers completely the bath furniture to protect it from any dust.

FINISH

Marble. 100% Natural stone. The hardness and resistance of natural stones make it an ideal material for wet areas such as bathrooms.

Compact. This product consists of 95% natural stone and 5% natural resin, a mixture that allows great hardness and perfect resistance to abrasion.

Microtec. A revolutionary new product, which is composed of a mixture of high density mineral filler, and covered with a colored synthetic product based on last generation nanoparticles, which make it a water-repellant product of great antibacterial performance and of high resistance to scratches and stains of all kinds.

Krion. Krion is a material that is warm to the touch and similar to natural stone. This material is composed of two thirds of natural minerals (ATH: Alumina Trihydrate) and a low percentage of highly resistant resins. This composition guarantees a lack of pores, antibacterial without any type of additive, hardness, resistance, easy repair and easy maintenance and cleaning.

INSTRUCTIONS ON THE CARE AND MAINTENANCE OF: NATURAL, COMPACT, MICROTEC

Natural stones are formed by a long natural process so they always present differences in tonality, different types of veins, incrustations of other minerals or fossils and some other irregularities that enhance their beauty and make them unique. WHICH SHOULD NOT BE CONFUSED WITH PRODUCT FAILURES OR DEFECTS.

To ensure that all our products are of the highest quality, our Natural Stoneware have been selected from the best quarries and we apply water-repellent and oil-repellent treatments stains, which prevent the formation of fungi and bacteria, facilitating their cleaning and preserving the original beauty for a long time.

However, for the care and maintenance of the stone, we recommend general rinsing with water after each use and ensure sufficient ventilation of the bathroom. It is advisable to drying the pieces with a cloth after use to avoid stains caused by lime or water.

To clean Natural Stone, it is sufficient to use any detergent on the market with Ph, neutral recommended for this type of material. avoid the use of other cleaning unless it is clearly specified that they are for Natural Stone, this concerns also glass cleaners and generic bathroom detergents.

We do not recommend the use of abrasive dry cleaning products, neither the use of detergents that contain acids of any kind, alcohol and especially anti-limestone products that would damage the stoneware in a serious and sometimes irreversible way. Following these indications you will be able to enjoy the beauty of a natural product for a long time.

The warranty will not be valid if the products have not been properly stored or installed following correctly the installation instructions, due to misuse or infiltration, or by the use of contraindicated cleaning products. Likewise, the guarantee does not assume the logical deterioration over time, cuts, scratches or damage due to blows or accidents. As well as in cases where its use has not been for domestic purposes.

THE WARRANTY DOES NOT COVER INCIDENTAL OR ACCIDENTAL DAMAGES

MAINTENANCE, USE AND CLEANING

Attention ! The manufacturer is not responsible for damage caused by flooding, leaks in pipes, faucets or poor ventilation in the bathroom.

For a good conservation of the furniture it is advisable to follow the following instructions:

- It is advisable to clean your furniture with a soft and dry cloth.
- Make sure that the silicone in the joints between the sink and the wall is always in good condition.
- Never use cleaning products in powder or cream or abrasive products.
- Never expose the furniture to abundant amounts of water.

The manufacturer declines all responsibility in case of not respecting any of the general conditions of guarantee.

ENVIRONMENTAL AND CERTIFICATES

Protection and preservation of natural communities and high conservation value forests.
